

Aaron Gauntt

Full Stack Developer with a passion for every stage in the development process. Adept at working independently as well as collaborating with teams to produce full stack applications and solve bugs.

EXPERIENCE

Axle Executives, Austin — Event Promoter

FEB 2019 - MAY 2019

Host promotional shows to demonstrate the effectiveness of various products.

PPD, Austin — Research Technician Coordinator

MAR 2017 - AUG 2019

Oversee conduction of all floor procedures, including, but not limited to, phlebotomy, ECGs, and vital sign collection. Manage a department of over 75 technicians. Oversee daily schedules of all technicians, and make sure that the individual's skills are being put to their best use. For people with difficult veins, it is up to us to either collect their blood ourselves or assign a technician who has shown to be above average in phlebotomy. Act as a liaison between our department (Technical Operations) and all other departments, including the Clinical Teams, Paramedics, Housekeeping, Pharmacy, and Security. Write and distribute daily reports concerning the day's events for all active studies.

PPD, Austin — Research Technician

MAR 2016 - MAR 2017

Collect data for clinical research studies, including phlebotomy, vital sign collection, and capturing ECGs.

EDUCATION

Angelo State University San Angelo, Texas — Bachelor of Science in Kinesiology

DEC 2017

University of Texas at Austin Web Development Bootcamp Austin, Texas — Full Stack Web Development Certificate

JUN 2019

Georgetown, TX 78626

(512) 869-9553
